

Baker's Square

Required: Three 4" strips of color A, color B, color C, and color D

All seams are $\frac{1}{4}$ ".

1. Sew Color A to Color B strips together lengthwise. Do this 3 times.
2. Sew Color C to Color D strips together lengthwise. Do this 3 times.
3. Cut all of these strip sets into 7 $\frac{1}{2}$ " squares. You need 15 squares of each color set. You'll have extra.
4. Arrange the blocks in 6 rows and 5 columns. Alternate horizontal versus vertical placement.
